

<@phrik> Welcome to #archlinux, tell us how you fucked up.

IRC nickname: ..... Date and time of fuck-up: .....

**What emotions were going through your head upon fucking up?** (check all that apply)

- ☐ Panic      ☐ Remorse      ☐ Amplified IRC elitism      ☐ Fear, uncertainty and doubt  
☐ Nerdrage      ☐ Wah wah wah      ☐ Desire to install Ubuntu      ☐ Other (please specify): .....

**What initially caused your fuck-up to occur?** (check all that apply)

- ☐ systemd  
☐ pacman -Sy <package>  
☐ pacman -S --force <package>  
☐ The AUR  
☐ I used yaourt  
☐ I installed ..... (packages)  
☐ I ran dd and now my computer won't boot  
☐ I didn't look it up on the Arch Wiki  
☐ I looked it up on the Debian Wiki  
☐ Allan broke it  
☐ I tried deleting a file named ~  
☐ My root partition is btrfs  
☐ I used an installation script  
☐ I forgot the root password  
☐ I saved the root password in a text file only readable by root  
☐ I copy-pasted commands from an abandoned online discussion forum  
☐ I tried setting up a printer and now lp0 is on fire  
☐ I couldn't find #archlinux  
☐ I took #archlinux-offtopic seriously  
☐ I listened to ..... (IRC nick)  
☐ I didn't listen to ..... (IRC nick)  
☐ I tried to be funny in IRC and got banned  
☐ I put my swap file in /tmp  
☐ I installed LUKS with a detached header and my mom washed the pants with the USB stick in them  
☐ I don't know, but it wasn't my fault  
☐ Other (please specify): .....

**What have you tried so far to remedy your fuck-up?** (check all that apply)

- ☐ pacman -Syu      ☐ Rebooting      ☐ Reinstalling Arch Linux      ☐ Installing Gentoo  
☐ Crying      ☐ Crying in IRC      ☐ Other (please specify): .....

Please return completed form to /dev/null in order for your fuck-up to be assessed by a professional.
